

# ENHANCING COMFORT FOR A BETTER RIDE

Expert NVH Solutions Through Design,  
Testing & Simulation

# THREE SENIOR ENGINEERING MANAGERS

With Over 100 Years of Combined Automotive Experience

## Our Expertise Includes:

- Tire and Brake: Design, Testing, Simulation
- Accelerated Durability Validation
- Vehicle NVH and Ride Comfort

### Tire Technology

Improve Ride and Reduce Noise.

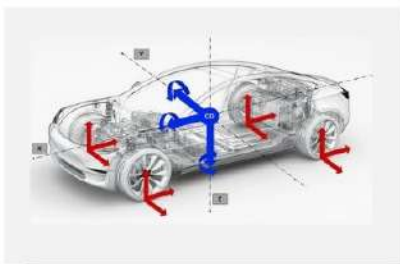

- Tire NVH
- NVH Benchmarking
- Tire Ride Comfort

### Brake Technology

Enhance Braking Performance.

- System Layout
- Brake NVH
- Vehicle Integration

### Custom Trainings

Unique Expertise Transfer.

- General / Tire NVH
- Vehicle Dynamics
- Custom Durability

# OUR TEAMS CAPABILITY

From Road Noise and Vibration Testing to Component Durability and FEM Analysis

Leveraging Decades of Engineering Expertise in Design, Testing, and Simulation to Tackle Complex Automotive Challenges in Noise Vibration Harshness

## **Accelerated Durability**

Reduce Your Validation Timing.

- Structural / Electronics
- Vibration Diagnostics
- 6-Sigma Data Processing

## **NVH Testing / Head Acoustics**

Road and Indoor Testing.

- Data Acquisition
- Advanced Data Processing
- Sound Quality

## **Partnership with Kettering University**

Combining Academic Excellence & Industry Expertise

- State of the Art Laboratory
- NVH & FEM Software Packages
- Access to Chassis Dyno

Consulting LLC
